Now begins a new year  
a time of peace  
of love  
and flowing with  
the vibrations  
of the All There Is

What will this new year bring  
is a question  
to be answered  
known in 365 days

I know it is the first year  
of my new life  
it is a new  
beginning

As God lights my way  
I shall travel  
that way  
I shall be  
what I set  
out to be

I reach out  
as God takes my hand

I reach out  
to destiny

My time has come

870101

Down from the presence of God  
descended his Angels  
on earthbound missions

On invisible stairs  
I see them glide into this reality  
they come through  
the starlit  
etheric night  
they come to earth

They are only seven  
of seven thousand infinite  
they work this plane

they hold out  
their loving hands

What are these Angels  
they are God's Light  
they are the light  
behind our light  
they are our  
link to the  
Universal All

We pay them little mind  
we doubt they even  
exist  
we take credit  
for their work

And what is the work of these  
light of essence beings

Their mission is to guide and lead  
to give a loving hand  
with a loving  
spirit

They are special and unique  
unbalanced in that  
they are love  
they are pure light

I see them all around  
moving to and fro  
and here and there

walking among us  
as we crowd among  
each other

Busy messengers  
and workers  
of God's will

light carrying  
light

We seldom tell them thank you  
or I love you  
or any other acknowledgment  
and none do they  
expect

But I see them each day  
and in my nightly dreams  
I constantly nod hello  
but seldom disturb  
their routine

They always wait by our side  
they wait for requests and  
prayers to answer  
and to  
carry to God

Theirs is an eternal existence  
of love's devotion

I move through the day  
nodding hello and once in  
a while all the time  
I ask them to  
help in some way

To help others  
I ask them to help me  
raise up those with  
outstretched hands

And as I go from here to there  
working with these beautiful ones  
once in a while  
like now  
I reflect  
upon their  
perfection

And I fill with emotion  
because their love exists  
so close to me

I thank God that He lets me see  
I love God that he allows  
me to work with his  
special beings

I am humbled  
by their love  
I exist in their  
presence

I thank God  
for all that he  
has bestowed  
upon me

87102

What a wonderful day that was  
what a joyous night that comes

Two spirits of immortal light  
traveling in the silent night

Here we sit and be  
loving in each other's  
energy

Who is to say what  
tomorrow brings

Only that tonight  
the whole Universe  
sings

870102

Here I sit  
    in these modern times  
        and modern places  
            but under the light  
                of lavender candles

I sit illuminated  
    by the light  
        of hot wax  
            burning

How many yesteryears  
    in lives gone past  
        have I written  
            under candlelight

many times  
    many

So I here reflect  
    in a modern place  
        but with old light

The light that  
    has always  
        expanded my world

The light  
    from whence  
        I began

870105

I chase the incense  
smoke into the  
celestial vapor  
of the  
omnipotent  
presence

I ride  
and roll  
twist  
and turn  
out of this  
reality

Up up  
and out  
dissipating  
grain by grain  
my spiritual  
brain

Dissolving  
discreetly  
into the  
cosmic  
mystic  
vibration

I reach out  
disintegrating  
cleansing  
my soul

bathing  
my soul  
in God's  
Eternal Light

Each infinite  
particle  
departs  
to its special  
place

Its place  
of peace  
and rejuvenation

Then back together  
I come  
reintegrating  
reunifying  
I come  
back together

I say  
a closing  
prayer  
to God

I say Amen

870107

Past memories  
flood my  
crown

Black hair  
on white  
satin pillows

The soft breathing  
the moments of peace  
of you  
in your  
sleeping

And for me  
in the  
watching

The gentle gazing  
the etheric  
touching of  
me and you

Memories  
intangible vibrations  
of a meandering mind

uncover  
past touchings  
secreted  
soft remembering  
of you

870107

Yellow balls of fire  
traverse the invisible  
theater of my  
fantasy

Red roses of  
love pass  
quickly behind

From right  
to left they  
come and  
go

Oranges apples  
white clapboard houses  
blue Summer skies  
and white-capped  
endless waves

Over the waters  
to the sun  
past a cloud  
out of the  
atmosphere

into the cosmic night  
Again and again I go  
leaping upon  
any thought  
catapulting  
into Eternity

870107

The night comes  
and the cold air  
closes tight  
against my  
stone house

I sit close  
to the yellow-orange fire  
I huddle close  
to the warm  
my eyes bonded  
to the flickering flame

I leave my  
corporeal blood and bone  
and glide outside  
into the  
cold crisp  
moonlit  
starry night

I am naked  
in my ghostly  
misty vaporous  
vibrations

I move down  
the path

My omnipotent  
self moves out  
left and right  
up and down

I touch All There Is

I reach up to  
the moon and beyond  
the planet stars

I expand  
and expand  
free of my  
mortal container

I only  
dilate  
a couple hundred  
thousand miles

I sit on the  
white bright  
moon  
and look  
at the sun  
behind the  
Earth

I scan  
the earth  
until I find  
a small stone house

I move inside  
to see a  
huddled me  
  
looking  
into yellow fire  
at my soul

sitting on the moon  
inside the yellow-orange  
light waves

870107

I look at you  
and fall off a  
cliff so high  
there can be  
no bottom

The height  
that love carries  
an unsuspecting  
soul  
overwhelms

I have  
never been  
raised so  
high  
floated so far  
fallen so hard

I try to ground  
myself when  
I feel the  
helium of  
you

I see you  
I feel your  
presence  
and I begin  
to climb

If I  
gaze into your  
eyes  
or touch  
your hand

I rocket toward  
Heaven  
with no  
thought  
of what lay  
below

I have never  
known these  
emotions

I have never  
been out of control

I guess I  
have  
never  
been in love

870108

The rain falls  
as I peacefully  
wait for you

I retrieve  
memories of  
past touching  
and  
begin to  
to shift  
into our  
other  
reality

I go to where  
we always  
touch

I float  
to our eternal  
bonding

There I  
rest and  
reflect  
in the  
peaceful  
calm

There I love you  
free from all  
earthly  
cares

Hand in hand  
we walk through  
the sun-dappled  
meadow

The Summer heat  
rises from the  
green earth  
and the  
flowered nectar  
fills the air

So much peace  
so much  
tranquility

These earth bodies  
are filled with  
all the pleasurable  
rhythms of  
the earth

and I am  
filled with  
the lovely  
physical presence  
of you

870108

The ancient ships  
labor through  
blue-green  
waters

while we stand  
on the deck  
considering  
our particular  
mission

I am alive  
and full of  
peaceful  
success

and you are  
every part  
of all you  
wish

We ride the crude  
ship  
toward distant  
shores in  
ancient times  
on long past  
insignificant  
business

I think of those times  
and that life  
while my  
soul's vague remembering  
tries to

communicate who you are  
in this life  
to my conscious self

I know you are the same now  
as you were  
then

I must know you

I know I do

and soon I will  
remember

and soon I will  
remember

and then tell you  
so that we  
can bathe  
again in those  
memories

870108

I enlist  
the ancient bird  
of remembering  
to carry me  
back to  
times past

I want to voyage back  
to those times  
of old  
and ancient days

I want to go back  
and remember  
times like  
these  
  
times of prior  
trauma and  
tribulation

I want to go back  
and remember those  
times so that  
I can also  
remember  
the happiness  
  
that always followed

870108

Evergreen  
that is what I am

I am ever growing  
evergreen

I never observe  
a season of Fall  
or Winter  
but only  
Eternal Spring

I am  
Eternal Spring  
green  
growing

Forever so I  
have been  
and forever  
so I shall  
be

Life and being  
are evergreen  
to me

870108

The hand fan  
moves the air  
about my  
face  
cooling  
as the sweat evaporates

The pretty fan  
with pretty flowers  
of lavender  
gold  
and blue burgundy  
white

also moves  
the etheric  
vibrations  
and create  
those flowered  
vibrations  
all about my  
face and crown

The disturbed air cools  
my physical face  
while the painted flowers  
are like cool mint  
caressing my  
spiritual brain

870108

White Summer lace  
lays gently on your  
soft smooth  
skin

Your beautiful nakedness  
kissed by  
white lace  
in the Summer  
shade

The personification  
of all the beauty  
that this  
earthly realm  
can produce

Soft golden hair  
caresses your face  
and lays softly  
on white lace

While  
softly the gentle  
loving eyes  
caress me  
as I marvel  
at all the beauty  
that is you

870108

Listening  
to soft music  
and slow  
dancing with you  
in lavender  
candlelight

I dance  
with the you  
that is somewhere  
else

I stand  
listening  
and watching our  
dance

I stand  
in disbelief  
at the love  
I see  
between  
you and me

870111

I wrote a thousand poems  
of perfect celestial  
love I wrote

Time and again  
my thoughts  
went to that  
perfect love

Always a dream  
always a fantasy  
always someone else's  
wish come true

Then I met you  
and looked into your  
mystic eyes

I held your soft body  
I kissed your  
loving lips

Then I understood  
that all that I  
had written  
of love's  
unconditioned bliss  
was only straw in the  
Winter wind

870111

I see you  
    I see me  
        I feel love

I see the  
    stars at night  
        and the blue day sky

I see your love

I hear  
    the music  
        on the radio  
            and the Universal  
                Celestial choir  
                    singing

I hear me love you

I smell  
    the red roses of  
        forever Spring  
            and the incense  
                smoke of the  
                    other side

I smell the perfume of we

I touch the earth  
    I touch the sky  
        I touch you  
            and you touch me

I touch the tangible love  
    of a united us

I taste  
the morning dew  
I taste the  
electric atmosphere

I taste the sweet honey  
of love on your lips  
the sweet honey  
of me and you

I experience  
the sparkling tingle  
of you inside me  
and me inside you

I bathe in our  
caressing  
I drift  
within the electricity  
of you and me  
merging

870112

The day unfolds  
and memories of you  
begin to  
possess my  
consciousness

The bond that grows  
between us  
creates a morning  
longing for  
your touch

It matters not  
how much I  
caress you with  
my mind

It is your touch  
that I need  
to calm my  
restless soul

Come to me  
my sacred love  
come quench  
this lonely fire  
of wanting

Come caress me with  
your lips  
and satisfy  
my longing

Candlelight  
flickers on the walls  
as butterflies dance above  
our heads

The rhythm  
of life  
surges and  
flows between  
you and me

The love builds  
then flows  
expands and  
releases

Over and over  
round and round  
we float and  
turn in  
magic spaces

The butterflies  
multiply with  
each gentle  
surging

while Heaven's  
fairies' light  
comes to join  
the dance

as we love and caress  
on these inner planes

Eons and  
time immortal  
comes and goes  
as we  
love and caress  
on the inner planes

All-time and life  
suspend as we  
lock in this  
immortal embrace

Oh beloved one  
how majestic is our  
bonding  
how magnificent  
our merging

Come now  
take my hand  
travel with me  
on that Eternal  
blissful path

Join with me  
until day  
becomes night  
and All That Is  
is no more

870114

The broken pieces  
of two broken  
lives come  
together  
in casual  
regard

Time comes and goes  
as the mystical  
merging  
begins

Then as if by chance  
one to the other  
each notices a  
mending

The broken pieces  
come together  
while mending seams  
disappear

Day by day  
the miracle continues  
the rebirthing light  
creates the whole

Then from the cocoon  
of broken pieces  
caressed by love's light  
Time

Emerges a butterfly  
of perfect love

Emerges one butterfly  
from the pieces  
of two broken  
lives

870114

If you love me  
then all that I am  
is affirmed

If you hold me in your arms  
I feel the serenity of love's  
euphoric touch

If you kiss my lips  
my eyes reveal  
the Universe

If you lay with me  
my entire being  
becomes peace

I reach out to love you  
I reach out  
for your love

I hold onto  
each precious moment  
I savor each minute  
touching

I cuddle my love  
in your gentle arms

I rest my soul  
on your loving breast

I kiss all of you  
with all of me

870126

Each day comes and we awaken  
our consciousness to new  
toils and troubles  
joys and chores

At night we travel the  
inner planes and  
freely fly from  
here to there  
attending to  
this and that

We are always conscious of some reality  
we never rest  
Our split physical and  
spiritual realities  
take turns  
guiding our  
being

We easily cross the barriers  
of the time and space reality  
as easily as we  
flip a light  
switch in  
the dark of  
this reality

Why do we trap ourselves  
in these bodies  
why do we  
chain ourselves  
to one reality  
after another

We do it for the same  
reason that the moon  
travels around the earth  
and flowers bloom  
in Spring

We do it because  
we are part of All That Is  
little big pieces of  
one cloth  
all of all  
and part of part

So here we go  
on and on in infinite circles  
trying to achieve happiness  
by flowing with  
all life's rhythm  
riding the  
Universal waves

Here's to life  
and existence  
to all we are and aren't  
here's to just being

Here's to peace  
and happiness in a  
traumatic world  
of peaceful flowing

Here's to life  
and God  
to the Universe  
and the All There Is

Here's to learning to live  
with what we are  
because we are  
the living ebb  
and flow

of All There Is

870309

Long ago in the land  
of all that is beautiful  
lived a man with a  
heart of powerful  
Universal love

A man of serene mind  
and of knowledge  
from the ancient  
and future past

A gentle soul  
of infinite wisdom  
with eyes of  
Universal love's  
beautiful blue

In his castle  
he dwells  
and at his hand  
resides All That Is  
from everywhere

By his side  
the many from  
everywhere  
ancient companions  
come to visit  
his time  
and place

All alone in his physical place  
he is in constant  
touch with  
the etheric ones

So many have come to visit  
to say hello  
now that a knowing  
has been remembered  
now that peace  
reins

870326

I sit here and fade  
far away into  
distant time and  
space

I travel to past and present  
future places  
to visit friends  
from eons ago

I bring them to  
my home  
I call to them  
I say come  
my friends

I am again prepared  
to greet you  
and continue our journey  
to trek with our clan

I see you clearly  
the one in white woolen  
cloth of crude  
weaving

You stand there  
with all the Universe  
at your back  
you are the guide  
the host who  
will soon bring  
one by one

All those from  
the All There Is  
to speak as I  
sit and listen

How many years  
has it been this  
lifetime

How many trials  
and tribulations

The time has now  
arrived  
I am ready  
so are you

Welcome my friend  
let us begin

I stare at you  
with these spiritual eyes  
the ones that see in  
vision and imagination

You are there as real  
as the walls that  
enclose this house

You catch my mind  
and take me away and back  
in the flash of  
an instant

I say my prayers  
I make myself ready  
I prepare this home  
for you and me  
and our guests

I hope it pleasures you

It pleasures me

Elijah, my friend  
I embrace you with  
my eyes  
I can not help  
but stare

it has been so long

We lock and begin to retravel  
all that has gone before  
to catch us up  
to bask in old memories  
and to remember  
all the preceding days

before we begin to  
write the next

I take the name  
John WorldPeace  
It feels right  
it is for me

I take your hand  
I embrace your essence  
I kiss you hello again  
I say let's begin

870326

Night is dark  
and the light is dim  
from yellow candles  
burning cold crisp  
night air

Music comes from  
electronic plastic  
songs of sadness  
songs of joy

I lay here  
in my aloneness  
watching this pen  
track this paper

I lay alone  
wondering  
deeply crying for you

Where are you my love  
where are you

The future cannot  
unfold fast enough  
for our meeting

I wait for you  
on this lonely night

I wait  
anticipating your coming

870403

What bed holds  
    you on this cold night  
        where in this city  
            are you

I know you are here  
    I know

Come to my arms  
    I love you so much  
        My happiness waits  
            in anticipation

Oh love  
    Oh love  
        come to me

The days of my life pass  
    each day without you  
        is a day forever  
            missed

I travel the maze  
    on the way to our  
        interception

Two roses  
    moving toward the  
        crossroads of  
            love's exquisite  
                bliss

870403

The morning sun  
warms my eyes awake  
and dispatches the  
haze of night

I turn  
remembering your presence  
vaguely experiencing  
your  
loving scent

Vague memories  
pass with the  
morning sun

Then as I awake  
I see your golden  
watch on my night table

I see the evidence  
of last night's dream

I consider for a moment  
that you live here

Not so

But you are here  
I play mental games  
of loving anticipation  
considering moment to moment  
where you are  
in my home  
knowing you  
have gone

I caress your watch  
with my eyes  
and charge into  
beautiful memories

Day begins  
and I joy in the  
knowing that you  
will be back

Your golden watch  
click clicks  
love's assurance  
of your return  
to my physical  
dreaming presence
